MacIntyre is a national charity supporting children, young people and adults who have a learning disability. Our Central office is in Milton Keynes; across the city we support around 200 people in a variety of settings. MacIntyre receives funding to provide its core services, meaning that fundraised income can be used to buy the extras that make a real and tangible difference to the people we support. Every penny raised at this event will be used to benefit people in the Milton Keynes area.
