

What difference can you make?

MacIntyre receives funding to provide its core services, meaning that fundraised income can be used to buy the extras that make a real and tangible difference to the people we support.

Examples of this include: sports and play equipment, activity sessions and breaks, sensory items, equipment and technology to aid communication or music equipment.

In Milton Keynes, MacIntyre provide services and support more than 170 people with a learning disability and other complex needs. Responding to feedback received from the people we support, the MacIntyre Sports Group is one element of activity that we now offer in Milton Keynes. People with a learning disability and other complex needs often find it difficult to participate in sport due to low confidence, inaccessibility, lack of support and lack of opportunity.

Every penny raised at this event will be used to benefit our Milton Keynes Sports Project. If there is a particular MacIntyre service that you would like to support please contact the MacIntyre Fundraising team who will be happy to arrange this.

£420 will buy an indoor curling set

£400 will buy a 27-foot indoor roll out shuffleboard court package
